Mr. Sergio Aguilar
Vice-President
Technichem, Inc.
8421 S. Chetle Avenue
Santa Fe Springs, CA 90607

Dear Mr. Aguilar:

On May 14, 1998, the California Environmental Protection Agency, Department of Toxic Substances Control (Department), conducted an inspection of Technichem, Inc. located on 8421 S. Chetle Avenue, Santa Fe Springs, California. The enclosed report describes the findings of this inspection.

All pertinent information derived from the inspection, including documents and photographs, are included as attachments to the report. This report will become a public document; you may request that any trade secret or facility security information be withheld from public disclosure.

If you have any questions regarding this letter, or if you wish to meet with the Department to discuss any questions or concerns you have with the inspection or the report, please call Dionisia Rodriguez, Hazardous Substances Scientist at (818) 551-2905.

Sincerely,

Robert Kou
Supervising Senior
Hazardous Substances Specialist

INSPECTION REPORT

I. GENERAL INFORMATION

Company Name: Technichem, Inc.

Facility Address: 8421 S. Chetle Avenue
Santa Fe Springs, California 90607

Telephone Number: (562) 698-0118

EPA ID Number: CAD 981 375 983
State Generator's ID: HAHQ 360 142 84

Facility Type: Transporter

Regulated Units: None observed.

Waste Streams: Dry Cleaning Wastes (D001)

Regulatory Status: Registered Hazardous Waste Transporter #2102

Inspected by: Catherine E. Hanna.
Razel Trigilio
Dionisia Rodriguez

Date of Inspection: May 14, 1998.

II. CONSENT

Consent to conduct inspection that involves: taking photographs, reviewing and copying records, and questioning personnel. Yes/ No

Consent given by: Sergio Aguilar, Vice President

III. DOCUMENTS REVIEWED

- a. Manifests, Bills of Lading, LDR's, Exception Reports:
Transporter's copy of hazardous wastes manifests were reviewed.

- b. Contingency Plan:
Not applicable.
- c. Training Plan and Records:
Not reviewed during the inspection.
- d. Incident Report:
Not applicable.
- e. Waste Analysis Plan and Records:
Not applicable.
- f. Inspection Records:
Not reviewed during this inspection.
- g. Operation Log:
Not applicable.
- h. Tiered Permitting Applications and Authorization Letters:
Not applicable.
- i. Waste Analysis Plan and Records:
Not applicable.
- j. SB 14 Plans:
Not applicable.
- k. Closure Cost Estimates and Updates:
Not applicable.
- l. Part A:
Not applicable.
- m. Part B:
Not applicable.
- n. POTW Compliance Data:
Not applicable.

- o. Tank and/or Containment Certifications:
Not applicable.
- p. Air Board Permits:
Not applicable.
- q. Variances:
Transporter Regulatory Exemption Variance (serial number V96HQPSCB117) was reviewed. A copy of the variance is shown as Attachment 1.

IV. NARRATIVE OF OBSERVATIONS/DISCUSSION WITH OPERATOR

Razel Trigilio and Catherine Hanna inspected Technichem, Inc. (Technichem) on May 14, 1998. They introduced themselves and explained to Mr. Aguilar the purpose of their visit. They asked Mr. Aguilar for consent to conduct an inspection that consists of taking photographs, reviewing and copying records and questioning personnel. Mr. Aguilar granted the consent.

Trigilio and Hanna asked Mr. Aguilar to explain what Technichem does. Mr. Aguilar explained that Technichem picks up dry cleaning wastes and transports them to its main facility, which is located in Emeryville, for treatment. Mr. Aguilar said that the southern California office only does milkrun pick ups of dry cleaning wastes (both the solvent and filters), and then transports the wastes to the Emeryville facility. According to Mr. Aguilar, the Emeryville facility has been in operation for about 12 years, and the Santa Fe Springs office has been in operation since about August, 1996. Mr. Aguilar explained that the Santa Fe Springs office, when it is fully staffed, employs three employees. Mr. Aguilar explained that Technichem is a registered hazardous waste transporter and has received a milkrun variance pursuant to title 22 of the California Code of Regulations, section 66263.42, from DTSC. According to Mr. Aguilar, a busy dry cleaner needs to change out their dry cleaning solvent every month or two. Technichem calls the dry cleaners to confirm that they have a pick up of used dry cleaning solvent and filters. Technichem then sends out a bobtail truck to collect the spent dry cleaning solvent and filters. According to Mr. Aguilar, the used dry cleaning solvent and filters may stay on the bobtail truck for ten to fourteen days while it is parked at the Santa Fe Springs site. When the bobtail truck is full, the load of dry cleaning solvent and filters

are transferred to a trailer truck where it is stored for another 10 days. Both the bobtail truck and the trailer truck are maintained at the Santa Fe Springs location. A driver is then sent from the Emeryville facility to drive the trailer truck to the Emeryville facility.

Trigilio and Hanna then asked if they could walk thru the site. The Santa Fe Springs location consists of a reception area, a front office, a large warehouse and a loading dock. The trailer truck is parked on the loading dock where it is loaded with drums of used dry cleaning wastes. Trigilio and Hanna observed several drums sitting on pallets in the warehouse. Mr. Aguilar explained to them that the bobtail truck has broken down and was in for repairs and the drums containing spent dry wastes were off loaded into the warehouse.(Attachment 2, Photos 1 and 2). He also said that the drums will be loaded into the trailer truck soon.

Trigilio and Hanna asked to review the records. Trigilio noted that the facility had a Business Plan and that the drivers received their training from the Emeryville facility. Trigilio and Hanna left the site after the records review.

On July 17, 1998, I continued the review of the hazardous wastes manifests in the Glendale office. I noted that Technichem, picked up dry cleaning filters (solid waste tetrachloroethylene) on a milkrun manifest. Used dry cleaning filters can not be transported using the milkrun operation pursuant to state regulations. Nine copies of manifests showing Technichem as generator and listing solid tetrachloroethylene wastes are shown as Attachment 3. I also noted that some manifests show that hazardous wastes were being stored for more than 10 days at the Santa Fe Springs location. Copies of some manifests illustrating this are shown as Attachment 4.

On July 22, 1998 at around ten o'clock in the morning, I called Aguilar to discuss the violations found during the inspection. I explained to Aguilar that only dry cleaning solvents are allowed to be picked up under the milkrun operation. I told him that the dry cleaning filters that Technichem picks up from its clients must be listed on a separate manifest identifying the generator. I also told Aguilar that in reviewing the manifests, I found evidence that Technichem stored dry cleaning waste at the Santa Fe Springs for more than ten days, which is the transporter's exemption for storage. I faxed the Summary of Violation (SOV)

(Attachment 5) to him and asked him to sign it and return it to me. Around noon, Aguilar called me and we went through the violations one more time. After our conversation, I received by fax the SOV signed by Aguilar with a cover sheet acknowledging he understood the violations.

On July 24, 1998, I returned all the copies of the hazardous waste manifests forwarded to the Glendale office for review. I sent the documents by certified mail to Steve Tung in the Emeryville office of Technichem.

V. VIOLATIONS

Count 1. Health and Safety Code (HSC), section 25160 (d) (1).

Technichem violated HSC, section 25160 (d) (1) in that, prior to and continuing until at least August 27, 1997, Technichem transported used dry cleaning filters (Solid Tetrachloroethylene Class 6) without a properly completed manifest.

Evidence: See Attachment 3.

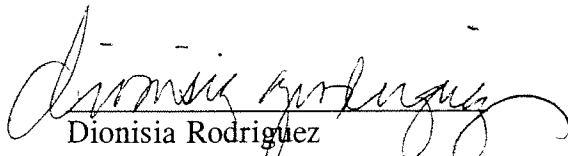

Compliance: Effective immediately, Technichem must transport used dry cleaning filters using a properly filled manifest provided by the generator.

Count 2. HSC, section 25201(a).

Technichem violated HSC, section 25201(a) in that on or about December 24, 1997 and several other times thereafter, Technichem stored dry cleaning wastes at its Santa Fe Springs site without authorization from the Department.

Evidence: Attachment 4 and statement made by Aguilar to Trigilio and Hanna on May 14, 1998..

Compliance: Effective immediately, Technichem must cease storing hazardous wastes at its Santa Fe Springs facility.

Transporter Regulatory Exemption Variance

STATE OF CALIFORNIA--CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

DEPARTMENT OF TOXIC SUBSTANCES CONTROL

P. O. BOX 806

SACRAMENTO, CALIFORNIA 95834-0806

(916) 331-2430

TRANSPORTER REGISTRATION APPLICATION/VARIANCE
ARTICLE 4, CHAPTER 13, DIVISION 4.5, TITLE 22, CALIFORNIA CODE OF REGULATIONS

Serial Number: VPA 495CB117

The California Department of Toxic Substances Control (Department) has determined that the person named below meets all of the general conditions required under Section 25149, Chapter 6.5, Division 20, of the Health and Safety Code (H&S Code) and, as indicated in Section 3 of this form, of Article 4, Chapter 13, Division 4.5, Title 22 of the California Code of Regulations (22 CCR). The Department grants a variance to:

NAME: Technichem, Inc.

BUSINESS LOCATION:

Address: 4245 Halleck St.

MAILING ADDRESS (If different)

1250 45th St., Suite #310City, State, Zip Emeryville, CA 94608Emeryville, CA 94608Telephone Number: 510-652-5455Contact Person: Stephen Tung1. Hazardous Waste Transporter Registration Number, unless new applicant 21022. Transporter EPA/State ID Number: CAD981375983

3. I AM REQUESTING A VARIANCE UNDER THE FOLLOWING SECTION(S) OF TITLE 22, CALIFORNIA CODE OF REGULATIONS:

- Granted* ☒ X Million Transporter, Section 66263.42, 22 CCR
☒ N/A Emergency Response Incident Transporter, Section 66263.43, 22 CCR
☒ N/A PCB Waste Transporter, Section 66263.44, 22 CCR
☒ N/A Consolidation Transporter, Section 66263.45, 22 CCR
☒ N/A Small Load Transporter, Section 66263.46, 22 CCR

☒ X I am requesting an exemption from the variance set pursuant to Section 66263.45, 22 CCR.4. Date Issued: Oct 9, 1986Expiration Date: March 31, 1987

5. Applicable Statutes and Regulations: The variance applicant is fully regulated under H&S Code, Section 25160, et seq., and the California Code of Regulations, Title 22, Division 4.5, Section 66260.1, et seq., except as specifically identified in Item 3 above.

6. This variance is subject to review at the discretion of the Department and may be revoked at any time. *This variance is valid only with a current Departmental Registration.*

 (H&S CODE, 25160)

DEPT. OF TOXIC SUBSTANCES CONTROL
 HAZARDOUS WASTE CONTROL UNIT

TRANSPORTER REGULATORY EXEMPTION APPLICATION/VARIANCE
PAGE 2APPROVAL: V. H. HASC B117

1. I Am:
☒ Currently registered as a hazardous waste transporter.
☐ Concurrently applying for registration as a hazardous waste transporter.

2. I am requesting a variance pursuant to Section 25143, BHS Code, and Article 4, Regulatory Exemptions for Transporters and Generators, Title 22, CCR, because the following conditions apply:

The hazardous waste is solely a non-RCRA hazardous waste or the hazardous waste management activity is subject to Resource Conservation and Recovery Act (RCRA) but has been granted a waiver or variance pursuant to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), or is not otherwise regulated pursuant to RCRA.

and

The hazardous waste or the hazardous waste management activity, when conducted in accordance with the provisions of Article 4, is insignificant or unimportant as a potential hazard to human health and safety and the environment because of its small quantity, low concentration, and/or physical or chemical characteristics.

3. FOR ALL APPLICANTS INCLUDING MILKHAUS TRANSPORTERS: Indicate the type or types of waste as shown in the regulations if applying for the milkhaus transporter variance exactly as shown in Sections 25143.42, 22 CCR. Other applicants, give the physical characteristics and chemical composition of the hazardous waste you will be transporting under this variance. Give the DOT shipping description which will be shown on the shipping paper or the generic description or commonly used industrial name.

Dry cleaning solvents (including perchloroethylene).

4. FOR ALL APPLICANTS OTHER THAN MILKHAUS TRANSPORTERS: (If applying for more than one exemption, be sure to identify the exemption to which the following information applies.) What are the estimated quantities of hazardous wastes involved? How frequently will the wastes be transported?

5. FOR ALL APPLICANTS OTHER THAN MILKHAUS OR SMALL LOAD TRANSPORTERS: Give the address(es) of the central collection facility or the temporary storage facility where this waste will be taken for consolidation. Use a separate sheet of paper if there is not enough room to complete your answer.

CERTIFICATION

I certify that I have read, understood, and will follow the provisions of Article 4, Chapter 22, Division 4.5, Title 22, California Code of Regulations, and that I shall immediately notify the Department of any noncompliance with the terms of this variance. I am aware that there are significant penalties for violations, including the possibility of fine and imprisonment for knowingly submitting false information. I certify under penalty of law to the accuracy of all statements made to the best of my knowledge herein.

GENERATOR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by proper shipping name and are classified, packed, marked, and labeled, and are in all respects in proper condition for transport by highway according to applicable international and national government regulations.

If I am a large quantity generator, I certify that I have a program in place to reduce the volume and toxicity of waste generated to the degree I have determined to be economically practicable and that I have selected the practicable method of treatment, storage, or disposal currently available to me which minimized the present and future threat to human health and the environment; OR, if I am a small quantity generator, I have made a good faith effort to minimize my waste generation and select the best waste management method that is available to me and that I can afford.

Summary of Violations

SUMMARY OF VIOLATIONS

On May 14, 1998, the Department of Toxic Substances Control (DTSC), California Environmental Protection Agency, conducted an inspection at:

Facility Name: Technichem, Inc.

Facility Address: 8421 Chetle
Santa Fe Springs, California 90607

EPA ID Number: CAD 981 375 983

County Name: Los Angeles

As a result of this inspection, the violation of hazardous waste laws, regulations, and requirements listed on the attached pages were discovered. All violations must be corrected; the actions you must take to correct the violation(s) are listed with each violation(s). If you disagree with any of the violation(s) or proposed corrective actions listed in this Summary of Violations, you should inform DTSC. If you disagree with any of the violations listed in Section I, you must give the inspector who issued the Notice to Comply a written notice of disagreement.

You must correct the violation(s) listed in Section I: Minor Violations, within N/A. Within five working days of achieving compliance, you must sign the statement certifying compliance at the bottom of Section I and return it to DTSC at the address provided. A false statement that compliance has been achieved is a violation of the law and punishable by a fine of not less than \$2,000 or more than \$25,000 for each violation. DTSC may reinspect this facility at any time.

DTSC will provide you a complete inspection report within 65 days of the inspection. You may request a meeting with DTSC to discuss the inspection on the findings of the report. The issuance of this Summary of Violations does not preclude DTSC from taking administrative, civil, or criminal action as a result of the violation(s) noted in the Summary of Violations or that have not been corrected within the time provided in the Notice to Comply.

SUMMARY OF VIOLATIONS

Facility Name: Technichem, Inc.

Date July, 1998

SECTION I: MINOR VIOLATIONS/NOTICE TO COMPLY

Within five working days of achieving compliance, you are required to sign the certification below, and return it to DTSC at the above address.

Failure to correct the violations and certify compliance within the time provided may result in the Department taking additional enforcement action of these violations.

No minor violations were observed during the site visit on May 14, 1998 and subsequent records review..

I certify under penalty of law that the above corrective actions have been taken and the violations have been corrected. I am aware that these are significant penalties for submitting false information.

SUMMARY OF VIOLATIONS

Facility Name: Technichem, Inc.

Date: July , 1998

SECTION II: OTHER VIOLATIONS

List of violations and compliance actions not included in Section I (Minor Violations/Notice to Comply).

1. Health and Safety Code (HSC), section 25160 (d) (1).

Technichem violated HSC, section 25160 (d) (1) in that, prior to and continuing until at least August 27, 1997, Technichem transported used dry cleaning filters (Solid Tetrachloroethylene Class 6) without a properly completed manifest.

Compliance: Effective immediately, Technichem must transport used dry cleaning filters using a properly filled manifest provided by the generator.

2. HSC, section 25201(a).

Technichem violated HSC, section 25201(a) in that on or about December 24, 1997 and several other times thereafter, Technichem stored dry cleaning wastes at its Santa Fe Springs site without authorization from the Department.

Compliance: Effective immediately, Technichem must cease storing hazardous wastes at its Santa Fe Springs facility.
